

## Creating a profile and setting up remote access to ClinicalKey

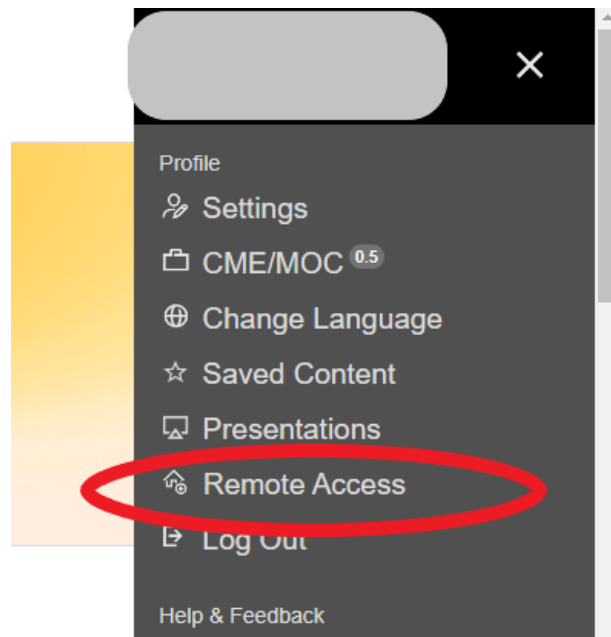

**Step 1.** Press *Register* in the upper right corner of the ClinicalKey page and register **with your UL e-mail address** (LUIS username + @edu.lu.lv) by filling in the required fields. After successful registration, a confirmation will be sent to your UL e-mail.

The screenshot shows the registration form. The form includes fields for "First name \*", "Family name \*", "Email address \*", and "Password \*". Below these fields is a section for "Additional profile details" with two checkboxes: "I wish to receive information from Elsevier B.V. and its affiliates concerning their products and services" and "I have read and understood the Registered User Agreement and agree to be bound by all of its terms \*". The "Register >" button at the bottom is circled in red.

**Step 2.** After successful registration, go to menu at the upper right corner of the page and select Remote Access.

**Step 3.** Enter the same UL e-mail address that you registered with and select the organization.

#### Apply for remote access

If your institution has Remote Access enabled, this feature will allow you to access ClinicalKey even when you are not on your institution's network.

To begin, please input your institutional email address below. Remote Access is not compatible with a Yahoo, Gmail, or other personal email account. If you do not have an email address associated with your institution, please contact your institution's administrator to obtain remote access.

Email address

**Step 4.** An activation link will be sent to your UL e-mail address. The link should be opened within 60 minutes.

Dear Customer,

Thank you for choosing the remote access activation option. To confirm please use the link below.
